

case study tilly's cafe

Tilly's café is a new and exciting business venture hoping to appeal to all ages. The coffee shop situated in Sawtry, Huntingdon, looked to incorporate a modern and welcoming environment from start to finish. With a careful budget, the owners wanted the shop to be inviting, demonstrating the quality reflected by their service and products.

“I am extremely happy with the service I received from **acs**. Their representative was an absolute star giving me lots of choices for my furniture, sourcing the exact items that I wanted so that everything complimented the rest of the shop. The furniture and play area looks fabulous. I would thoroughly recommend **acs**.”

Samantha Bowens,
Manager

To establish the warm and inviting environment desired, the **acs** design team created a chic interior consisting of brown leather seating with oak frames and oak tables. Working closely with the client, layouts were viewed and finalised. Due to the demand for a children's play area, **acs** liaised with a specialist to create this sought after addition for Tilly's youngest customers.

industry and size

Coffee Shop, 10 employees.

challenge

To create a warm and inviting, contemporary cafe whilst incorporating a vibrant play area for customers children.

solution

Space planning possible layouts and colour schemes for the cafe area offering different seating options for customers. **acs** liaised with a soft play company to create the childrens play area.
